

# Mathematics Class Slides

## Bronx Early College Academy

Chris Huson

25 November 2019

6.1 Intro to the coordinate plane and linear functions, 25 November

6.2 Laptop practice - Geogebra graphing functions on coordinate plane, 26 November

6.3 Coordinate geometry practice, 27 November

6.4 Assessment: distance formula, Monday 2 December

6.4 Assessment: distance formula, Monday 2 December

6.5 Laptop practice - Geogebra distance and the Pythagorean theorem, 3 December

## GQ: How do we plot lines on the coordinate plane?

CCSS: HSG.CO.A.1 Know precise geometric definitions

6.1 Monday 25 Nov

### Do Now: Plotting points and lines

1. Modeling geometric situations with an algebraic equation
2. Slope-intercept form of linear equations
3. Dilation of a line centered at the origin

Review exam results

Lesson: Perpendicular and parallel slopes

Homework: Test corrections due tomorrow

## GQ: How do we work on the coordinate plane?

CCSS: HSG.CO.A.1 Know precise geometric definitions

6.2 Tuesday 26 Nov

### Do Now: Deltamath practice

1. Graphing linear equations
2. Perpendicular and parallel slopes
3. Function and algebraic manipulations

10.1 meets in Room 414 first period tomorrow (advisory schedule)

Homework: Complete Deltamath homework section

## GQ: How do we plot lines on the coordinate plane?

CCSS: HSG.CO.A.1 Know precise geometric definitions

6.3 Wednesday 27 Nov

### Do Now: Plotting points and lines

1. Modeling geometric situations with an algebraic equation
2. Slope-intercept form of linear equations
3. Dilation of a line centered at the origin

Review exam results

Lesson: Perpendicular and parallel slopes

Homework: Test corrections due tomorrow

## GQ: How do we plot lines on the coordinate plane?

CCSS: HSG.CO.A.1 Know precise geometric definitions

6.4 Monday 2 Dec

Do Now: Plotting, measuring, and translating on the  $x$ - $y$  plane

1. Measure horizontal and vertical distances
2. Measure diagonal distances
3. Parabolas, quadratic functions, & function translation

Lesson: the distance formula (Pythagorean theorem)

Review perpendicular and parallel slopes

Homework: Khan Academy distance practice

## Assessment: Distance formula (on looseleaf paper)

1. Given  $A(7, 5)$  and  $B(7, -4)$ , find  $AB$ .

2.

3. What is the length of  $\overline{CD}$  if  $C(1, -2)$  and  $D(7, 6)$ ?

## GQ: How do we calculate distance given coordinates?

CCSS: HSG.CO.A.1 Know precise geometric definitions

6.5 Tuesday 3 Dec

Project paper: Use paper & pencil or MS Word & Geogebra

1. Radical spiral
2. Angle measures on the coordinate plane

Lesson: Drawing perpendicular figures in Geogebra

Homework: Complete Khan Academy homework section
