

Mathematics Class Slides

Bronx Early College Academy

Chris Huson

2 January 2020

7.1 Dilation calculations of triangle, Thursday 2 January

7.2 Dilation calculations of triangle, Friday 3 January

7.3 Dilation calculations of triangle, Monday 6 January

GQ: How do we calculate the lengths of \triangle s under dilation?

CCSS: HSG.CO.A.1 Know precise geometric definitions

7.1 Thursday 2 January

Do Now: Exam review

- ▶ Dilate a given triangle with scale factor
- ▶ Applying dilations on the coordinate plane
- ▶ The parameter m in a function $f(x) = mx + b$
- ▶ Isosceles triangle review
- ▶ Graph peer grading

Lesson: Dilation and the properties of similar figures, notation

Homework: Complete problem set (Portfolio binder extra credit Monday)

GQ: How do we use equations to solve geometry problems?

CCSS: HSG.GPE Express geometric properties with equations

7.2 Friday 3 January

Do Now: Applying the tangent function

1. Calculate the tangent of an angle using a calculator
2. Calculate the tangent of an angle given a slope, or \triangle side lengths
3. Solving for the a triangle's sides given a vertex angle measure
4. Inverse function on the calculator $\tan^{-1}(x)$

Lesson: Review of problems using coordinate geometry

Homework: Complete problem set (Portfolio binder extra credit Monday)

GQ: How do we use equations to solve geometry problems?

CCSS: HSG.GPE Express geometric properties with equations 7.3 Monday 6 January

Do Now: Applying the tangent function

1. Calculate the tangent of an angle using a calculator
2. Calculate the tangent of an angle given a slope, or \triangle side lengths
3. Solving for the a triangle's sides given a vertex angle measure
4. Inverse function on the calculator $\tan^{-1}(x)$

Portfolio binder

Lesson: Review of problems using coordinate geometry
