

Mathematics Class Slides

Bronx Early College Academy

Chris Huson

22 October - 2 November 2018

3b.1 Drui - Vector arithmetic, Friday Nov 16

3b.2 Drui - Vector arithmetic, Monday Nov 19

3b.4 Drui - Vector equations of lines, Wednesday Nov 21

3b.5 Drui - Vector equations of lines, intersections, Monday Nov 26

3b.7 Drui - Vector equations of lines, applications, Wednesday Nov 28

3b.8 Drui - Vector applications, Thursday Nov 29

3b.9 Drui - Vector applications, Friday Nov 30

GQ: How do we find the angle between vectors?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.1 Friday Nov 16

Do Now: Given $\triangle SNO$ with $S(2, 1)$, $N(7, 1)$, $O(10, 5)$.

1. Write down the law of cosines
2. Find the lengths SN and SO
3. Given $m\angle S = 26.6^\circ$, find NO

Lesson: Law of cosines, the scalar product

Homework exercise 12I pp. 428-9

GQ: How do we find the angle between vectors?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.2 Monday Nov 19

Do Now: Exam Style Question #5 p 439.

Lesson: Practice with the law of cosines, the scalar product

Homework: Calculus review problem set handout

GQ: How do we find the angle between vectors?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.4 Wednesday Nov 21

Do Now: Given position vectors \vec{OA} , \vec{OB} , \vec{OC} with $A(-3, 2)$, $B(4, 1)$, $C(3, k)$.

1. Find $m\angle AOB$
2. Find k such that $\vec{OA} \perp \vec{OC}$

Review Exercise 12I pp. 428-9

Lesson: Vector equations of lines p. 430-1

Homework: Calculus review problem set handout

GQ: How do we use vector line equations?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.5 Monday Nov 26

Do Now: Given $A(-3, 2)$ and direction vector $\vec{b} = 2\vec{i} + \vec{j}$

1. Find the equation of the line through A parallel to \vec{b}
2. Is the point $C(3, 4)$ on the specified line? Justify your answer.

•
 $C(3, 4)$

Review vector equations of lines, Exercise 12J pp. 432-4

Lesson: Finding the intersection of two lines p. 434-5

Homework: Exercise 12J pp. 432-4

Parent-teacher conferences Thursday & Friday

GQ: How do we use vector line equations?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.7 Wednesday Nov 28

Do Now: Write directions to go from Room 414 to Yankee Stadium. Assume that streets in the Bronx run north-south and east-west. Estimate distances.

Spicy: include a third dimension (elevation).

Review intersections of two lines p. 434-5

Lesson: Applications p. 437

Homework: Exercise 12K pp. 435-6

Parent-teacher conferences tomorrow & Friday

GQ: How do we use vector line equations?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.8 Thursday Nov 29

Do Now: Vector angle Review Exercise #1 p. 440.

Spicy: #2, $\triangle PQR$

Review intersections of lines in 3 dimensions p. 434-5

Lesson: Applications p. 437

Homework: Exercise 12L pp. 437-8

Parent-teacher conferences today & tomorrow

GQ: How do we use vectors to solve problems?

CCSS: HSG.SRT.D11 Apply the law of cosines

3b.9 Friday Nov 30

Do Now: Vector angle Review Exercise #1 p. 438.

Spicy: #2 p. 438

Lesson: Applications p. 437

Homework: Review Exercises (evens) p. 438-441

Note the calculator and NO-calculator sections

Spicy: evens and odds

Parent-teacher conferences today 12-3:00
